Diversity of Events in Olympic Games Arouses Interest.

Long and Short Races and Jumping the Features.

#### CHARGES ARE UNFAIR

English Correspondent Says German Was "Pocketed."

But Brown's Friends Say Race Was Fairly Run.

Stockholm, July 12 .- Yankee athletes continued harvesting their crop of laurels at the Olympic games to-day. All three places in the final of the 110 meters race were won by the 116 meters race were won by Americans. A University of Vermont man captured the broad jump and nine wearers of the starry shield quali-fied for the semi-finals in the 400

Incidentally Americans broke two records—one of them twice. In the 400 meter race James Meredith, the Mercersburg school boy, paced by the veteran Melvin Sheppard, reduced the Olympic mark to 48 seconds, a few minutes after Charles Reidpath of Syracuse university had broken the same record by running the distance in 48 7-10 seconds.

Abel Koviat, Who Helped Win Heat in 3,000 Meter Race.

the running broad jump Albert L. Gutterson, the veteran leaper, with a jump of 7 meters 60 centimeters (24 feet 11 inches and a fraction), beat the previous Olympic record of 24 feet 6 1/2 inches.
The discus event was something of

The discus event was something of a disappointment for the American team, who met a powerful opponent in the Finn, Taipale, bue they made him break a world's record with a throw of 14s feet 1½ inches to get first place. Two of the United States team, H. L. Byrd and James H. Duncan, were second and third respectively. were second and third, respectively.

Stockholm, July 12.—The seventh day of the athletic section of the Olympic games opened this morning day. Delightful weather continues to prevail and the temperature was fa-

vorable to the American competitors. Early this morning a large group of big men, those from the northern nations forming the majority, gathered for the finishing rounds of discus for the finishing rounds of discus throwing, best hand. Shortly after-wards the ninety runners entered for the 400 meter flat race turned out to compete in the fifteen heats of that event, the semi-final heats of which were also set for decision today. The judges decided not to have the men run in tapes as at the final in London in 1908.

In 1908.

The 3,000 meters team race also run in heats, the final of the 110 meters hurdle race, the running long jump and the 4,000 meters cross country run starting and finishing in the stadium which is the concluding event of the modern Penthathion gave great va-

riety to the program.

The correspondent here of a London newspaper in his dispatches accused the American runners of unfair work against Hans Braun, the German ath-lete, in the final of the 800 meter flat race. He described them as "pocket-ing" Braun. The Germans, on the other hand, say the race was perfectly fair and Braun himself made no pro-

## GOOD-BYE TO "TIN" BRIDGES FIRMNESS AT THE

Dozen Old Bridges Give Way at Tends to Harden the Quota-Same Time.

Shunganunga Creek Responsible for Most of Bridges.

The death knell of "tin" and wooden bridges in Topeka will be sounded this evening when A. R. Young, city engineer, completes his plans for a dozen and a half re-enforced concrete structures over the streams inside the city limits. The plans calling for an expenditure of more than \$150,000 will mean the renewal of practically every bridge south of the Kansas river.

Fortunately for the city all of Topeka's old bridges began showing signs of old age at the same time. Timbers rotted, steel spans rusted and deteriorated, floors were rulned and pillars tottered. It is admitted at the city hall today that not one old "tin" or wooden bridge in Topeka today is safe for heavy traffic. The city officials sit miconstant fear that the giving away of a bridge will cost a life and heavy financial loss.

The preparations for the hond issue that will be submitted to the tax payers began early this spring as announced in the State Journal at that time. Today the city engineer has completed his plans. The bond issue will come up before the August primaries.

Save Money on New Bridges.

It is estimated by W. G. Tandy, city commissioner, A. R. Young, city engineer, E. G. Gibson, assistant city engineer and Cecil A. Forter, office engineer, that the concrete bridges in To-fig. down to 2½ advance trade. September of the doats trade. September of the cast strade. September of the cast strade is said to harden the market for provisions. Initial transactions ranged from 7½ down to 2½ advance in the Spicadona from 1½ advance in the time to do have the primeer and the city hall be concrete bridges in To-file down to 2½ advance that the provisions. Initial transactions ranged from 7½ down to 2½ advance with September of the concrete bridges in To-file down to 2½ advance with September of the concrete bridges in To-file down to 2½ advance with September of the concrete bridges in To-file down to 2½ advance with September of the concrete bridges in To-file down to 2½ advance with September of the concrete bridges in To-file down to 2½ adva

It is estimated by W. G. Tandy, city commissioner, A. R. Young, city engineer, E. G. Gibson, assistant city engineer and Cecil A. Forter, office engineer and Cecil A. gineer, that the concrete bridges in To-peka will pay for themselve in a few years. In the first place the engineers feel that the danger of lawsuits will be worth the expenditure to the tax-payers. In the second place, the constant repairing and remodeling of the old structures will cost more in five ars than the construction of new bridges.

The Shunganunga creek is the most

expensive stream of water in Kansas. he Topeka city officials believe. Practically every bridge must be built over this treacherous creek. The water ways in every instance must be widened. The stream winds in and cut until it de-stroys the value of hundreds of lots eats away the support of many ridges.

The increased weight of vehicles, the heavier loads in wagon and truck traf-fic have added to the dangers of the old iton and pile bridges in the city. Now that the timbers in the wooden bridges have outlived their usefulness, that the "tin" structures are of old design and weak and that it has been decided that the water way is not sufficient, the necessity of spending at least \$150,000 stares the property owners of Topeka "tin" structures are of old design and

The larger bridges to be renewed are: Davies street (pile); Fourth street (pile); Lake street (pile); Chandler street (iron); Sixth street (pile); Seventh street (pile); Eighth street (iron); Fifteenth street (pile); Kansas avenue (iron); Van Buren street (iron); Topeka avenue (iron); Lincoln street

## BRYAN AND T. R.

(Continued from Page L)

"Roosevelt had as great an opportunity to serve the progressive cause at Chicago as Bryan had at Baltimore. Chicago as Dija.

But Roosevelt was serving the man ples and the restoration of government to the cause. He wented one thing— he wanted the nomination. And yet he did not have enough votes to nomination and honest basis. The context every inch of the second for a progressive platform because of the context every inch of the cause of the context every inch of the cause of the context every inch of the cause of the caus But Roosevelt was serving the man inate himself upon any honest basis. He did have enough delegates in that convention ultimately to have nominated a real progressive and adopt a strong progressive platform. He could be strong progressive platform. strong progressive platform. He could "But Mr. Roosevelt was not govern-even have nominated Hadley on such ed by suggestion of that spirit of high a platform and progressive Republicans could have suported Hadiey in much the same spirit as hundreds of the patriotic and unselfish purpose which Bryan furnished such a much the same spirit as hundreds of the Democratic convention of the patriotic and unselfish purposes. thousands of them will now support Wilson. Neither Hadley nor Wilson are veterans in the progressive ranks. severest tests. Both appear to be men of high ideals whose records, though short, give promise.

None But Himself.

"But Roosevelt would not consider Hadley he ordered the third party maneuvers, lest he lose his followers.
"If he had the evidence to prove that Taft could not be honestly and fairly nominated, why did he not direct his lieutenants to present that evidence to the national committee and then to the convention and the country so clearly that the convention would not have dared to nominate Taft, and that Taft could not, in honor, have accepted the

omination, if made.
"The reason is obvious. An analysis of the testimony will, I am convinced had a majority of honestly or regularly elected delegates. This the mana-gers upon both side well understood. Each candidate was trying to seat sufficient number of fraudulently cr sufficient number of fraudulently cre-dential delegates, added to those regularly chosen to support him, to secure control of the convention and 'steam roll' the nomination. It was a proceeding with which each was acquaint ed and which each had sanctioned in

traveling man.

The little boy had gone to the station with his mother, to bid his grandmother, mitches and the could not enter upon such an analysis of the evidence as would prove Taft's regularly elected delegates in the minority, without inevitably subjecting his own spuriously credentialed delegates to an examination so critical as would expose the falsity of his own contention that he had an honestly elected majority of the delegates. He, therefore, deliberately chose to claim everything, to cry fraud, to bully the national committee and the convention and having thus created a condition which would make impossible a calm investigation of cases upon merit, carry the convention by storm.

The little boy had gone to the station with his mother, to bid his grandmother, Mrs. J. C. McClintock, and his aunts, the with his mother, to bid his grandmother, Mrs. J. C. McClintock, and his aunts, the with his mother, to bid his grandmother, Mrs. J. C. McClintock, and his aunts, the with his mother, to bid his grandmother, Mrs. J. C. McClintock, and his aunts, the with his mother, to bid his grandmother, Mrs. J. C. McClintock, and his aunts, the with his mother, to bid his grandmother, Mrs. J. C. McClintock, and his aunts, the with his mother, to bid his grandmother, Mrs. J. C. McClintock, and his aunts, the with his mother, to bid his grandmother, Mrs. J. C. McClintock, and his aunts, the with his mother, to bid his grandmother, Mrs. J. C. McClintock, and his aunts, the with his mother, to bid his grandmother, Mrs. J. C. McClintock, bon voyage on their trip to Europe. He cluded his mother and syrandman the surgandmother with his mother, to bid his grandmother, Mrs. J. C. New York Sugar Market. New York, July 12.—SUGAR—Raw, firm; Muscovado, 89 test, 2.30c; centrifugal, 96 test, 2.80c; molasses sugar, 89 test, 2.05c. Refined, steady.

the Democratic convention at Balti-more. Instead, he filled the public ear with sound and fury. He ruth-lessly sacrificed everything to the one Cotton Market.

lessly sacrificed everything to the one idea of his being the one candidate.

"He gagged his followers in the convention without putting on record any facts upon which the public could base a definite, intelligent judgment regarding the validity of Taft's nomination. He submitted no suggestion as to a piatform of progressive principles. He clamored loudly for purging the convention roil of tainted delegates, without purging his own candidacy of his tainted contests and his tainted trusts' support. He offered no reason for a third party excepting his own over-mastering craving for a third term."

Chicago Live Stock Market.

Chicago, July 12.—CATTLE—Receipts 1,000. Market slow and steady. Beeves, \$5.6069.70; Texaxs steers, \$5.3067.25; western steers, \$6.0067.75; stockers and feeders, \$4.006.35; cows and heifers, \$2.5568.00; calves, \$6.0069.15.

While dreaming of the-long trip of his grandparents and attempting to compare the water of the deep blue sea over which they were about to travel to that in the basin. James Mohler, the 6-year-old son of Jake Mohler, assistant secretary of agriculture, fell in the fountain at the Union Pacific passenger station Thursday afternoon. His life was saved by a traveling man.

Topeka, Kan., July 12. Topeka Marketa.

Topeka, Kan., July 12.

HOGS. \$7.0097.15 the list was relatively steady with light dealings.

Bonds were irregular.

A two point rise in American Tobacco and a one point decline in Canadian Pacific indicated the extreme point of difference at the opening of today's stock market. The general list was strong with gains in most of the active issues.

American Tobacco increased its gain the first hour with considerable strength in Reading and People's Gas and some of the specialities, but the general' list tended toward irregularity. Amalgamated and Union Pacific were heavy.

Light offerings forced prices down still further, St. Paul touching 190%, or 1½ below the level established when the dividend was reduced.

Fair to good.

4.0594.50

Common to fair.

3.5094.00
